

The Treff Café, loosely translated from German as a gathering place, is part of AgeSong at Bayside Park. It is our vision that *The Treff Café* will become that international and intergenerational gathering place. Simply, a place where our local and global neighbors and friends of all ages will find fresh, local, casual food enhanced by an atmosphere that fosters community engagement and human connections.

In addition to good food and drinks, *The Treff Café*, will host book clubs, discussion groups, game nights, international and intergenerational parties and music venues.

We thank you for your support and for helping build its neighborhood feel. Please give us your feedback and suggestions.

Viel hat von Morgen an,
Seit ein Gespräch wir sind
und hören voneinander,
Erfahren der Mensch;
bald sind wir aber Gesang.

– Friedrich Hölderlin

INTERPRETATION |

“We humans have experienced much since morning; through talk and listening to one another we become who we are; and soon we will be a song together.”
